

VERMONT LAMP RECYCLING PROGRAM MANUFACTURER APPLICATION AGREEMENT

Pursuant to the requirements of "An act relating to the collection and disposal of mercury-containing lamps," (the Act), signed by Vermont Governor Shumlin in May 2011, the Vermont Lamp Recycling Program ("Program") was established to enable lamp manufacturers subject to the Act ("Manufacturer") to fulfill their individual statutory obligation to implement and sustain a mercury-containing lamp recycling program in the State of Vermont.

The National Electrical Manufacturing Association (NEMA) is providing coordination services to individual lamp manufacturers to facilitate implementation of individual companies' statutory obligation. NEMA is not serving as "stewardship organization" as that term is defined in the statute. Participating lamp manufacturers agree that:

- a. NEMA is not a stewardship organization and therefore the Manufacturer assumes all responsibilities, obligations, and liabilities of the Plan and Program.
- b. NEMA is providing recycling program coordination services to multiple individual lamp Manufacturers under a common mercury-containing lamp collection and recycling Plan and Program to facilitate a more efficient Program than individual Manufacturers could provide on their own ;
- c. Any failure to meet statutory requirements and obligations of the Plan or Program is the responsibility of the Manufacturer. Any violation of statute may result in Vermont Department of Environmental Conservation taking action against the Manufacturer for failure to meet statutory obligations."

Participating Manufacturers should complete this application, indicate their agreement by signature on the next page, and submit it to Madeleine Bugel:

Mail: Director of Lamp Recycling Initiatives
National Electrical Manufacturers Association
1300 North 17th Street
Suite 900
Rosslyn, VA 22209

Email: Madeleine.Bugel@nema.org

Note: All Fields Required in Grey Portion of Application

Organization: _____
